

## EDUCATION

### Wellesley College

*B.A. in Data Science and English | GPA: 3.28*

Wellesley, MA

September 2022 – May 2025

### Vrije Universiteit Amsterdam

*Semester in Amsterdam Study Away Program*

*Coursework in Computer Science, Literature, and Dutch Language*

Amsterdam, NL

February 2024 - June 2024

### University of Vermont

*Completed first-year coursework | GPA: 4.00*

*Presidential Scholarship, Dean's List all semesters*

Burlington, VT

September 2021 – May 2022

## SKILLS

**Technical:** Python (Pandas, sci-kitlearn, NumPy, PyTorch), R/RStudio (Tidyverse, Shiny, Leaflet), Java, NLP, HTML, CSS, SQL (beginner)

**Computer:** Google Workspace, Microsoft Office Suite, Notion Workspace

**Statistical:** Frequentist & Bayesian Framework, Modeling, Visualization, Non-Parametric Tests

**Language:** Spanish (Working proficiency), Arabic (Elementary proficiency), Dutch (Elementary proficiency)

## RESEARCH EXPERIENCE

### New England Flying Squirrel Network

*Research Assistant*

Beverly, MA

June 2025 - Present

- Parsed and cleaned 5 years of data collected from 30 local nestboxes, as well as over 50 boxes maintained by citizen science volunteers, and iNaturalist
- Created linear regression models to identify environments correlated with presence of squirrels
- Currently working to create a Bayesian model and maps for the geographic distribution of northern and southern flying squirrels

### Capstone Project in Data Science

Wellesley College, MA

September 2024 - Dec. 2024

- Fit linear regression models and developed algorithm to investigate correlation of membership status of users and availability of bikes with higher use of Blue Bike stations
- Created graphics with tidyverse library to represent capacity of stations and demonstrate correlation

### Independent Study in English Literature

Wellesley College, MA

September 2024 - May 2025

- Developed and planned self-guided research project
- Collected relevant literature and criticism; presented research and connected findings with audience

### Wellesley College Department of Computer Science

*Undergraduate Research Assistant*

Wellesley College, MA

September 2024 - May 2025

- Created pipeline for logistic regression model and neural network to predict ability of genomic sequence
- Implemented feature scaling and testing functions in Python

## PROFESSIONAL EXPERIENCE

### Office of International Study

*Student Ambassador*

Wellesley College, MA

February 2025 - May 2025

- Created graphics in R to communicate trends in 20 years of student data including interactive maps.
- Presented to prospective students at information sessions and tabling events, engaged with students one-on-one about individual study away plans and programs

### New Student Orientation

*Orientation Mentor (Fall '24), Coordinator (Spring '25)*

Wellesley College, MA

August 2024 - February 2025

- Led groups of entering domestic and international exchange students, organized community bonding events, facilitated introduction to a unique campus culture.
